# PICKERVIEW FUNCTION

The PickerView should have two components, one for the **menu with price** and the another for the **'no. of items to be ordered'**

Let's say the first component could be like
Idly- Rs.5
Dosa- Rs.20
Poori- Rs.25
Pongal- Rs.15
Vada- Rs.10
Sweet- Rs.30

The second component could be like
1
2
3
4
5
6
7
8
9
10

The '**Ordered Menu'** Label should display the rows we select from the first component (menu with price) and the second component (no. of items to be ordered).

The '**Your Total Bill Value is'** Label should display the bill value according to menu and number of items selected.

The '**Ordered Time'** Label should display the current time in the following format **15-Nov-2021 01:52 PM.**
