📂 Projects

Webpage For Gamers, *Using HTML&CSS*   05/2021 – 06/2021
I have created a webpage for event process. In this project volunteers are pre-register to signing on online to join the event games. This helped us to reduce the time conception of the registration of the participation through online. By this I will get all the data in my database. After we will analysis all the data and conducting the event games.

FOOD ORDER SYSTEM, *Using CORE JAVA*   08/2020 – 09/2020
I have created a food order system in java. In this you can order food from different categories. In this the customer can simultaneously select the number of items he wants to buy and he can also calculate the total bill. I have created a database I which a customer can view the order table.

Courses

Java full stack developer, *Shiash Info Solutions Private Limited*   01/2023 – present
A Full-Stack developer is a professional responsible for working on both front-end and   Chennai, India
back-end development processes. They design, develop, and maintain fully-fledged and
functioning platforms with databases or servers.

Awards

INTER ZONAL, *Overall Champion*   06/07/2020
I focused on how to improve himself and those around him. A winner is remembered for
his stats.

HACKATHON   13/01/2020
Hackathons are exploratory programming events where people gathered around the same
passion give their best to find unique solutions to technical problems.

SALESFORCE ADMINSTRATOR   07/04/2019
The pass mark is 65%, meaning quite a high level of knowledge is required to be successful
in this exam. The test consists of 60 multiple-choice questions, which means you must get
at least 39 correct to pass.

Strength

I believe that my greatest strength is the ability to solve problems quickly and efficiently. I can see any given situation
from multiple perspectives, which makes me uniquely qualified to complete my work even under challenging
conditions. That problem solving allows me to be a better communicator.
